

**Dr. Daniel Becker**

Dr. Becker received a BS in Zoology at Ohio University in 1968 and his DDS from Ohio State University in 1972. He is currently Associate Director of Education for the General Practice Dental Residency at Miami Valley Hospital in Dayton, Ohio. In addition to his academic responsibilities, Dr. Becker provides IV sedation services for dental practices throughout the Dayton area and has published numerous articles in scientific journals and textbooks. He lectures extensively for dental organizations, colleges and universities on topics related to pharmacology, sedation and anesthesia, medical assessment and medical emergencies. Dr. Becker is noted for his pragmatism and his ability to convert otherwise "dry" material into formats that are both entertaining and informative

**Dr. Scott Froum**

Scott Froum is a board certified periodontist who received his BA from Amherst College in Amherst, MA with a major in biology. He received his DDS from the State University of New York Stony Brook School of Dental Medicine where he graduated with honors. He continued his dental training in the post graduate periodontal department at the State University of New York Stony Brook School of Dental Medicine and received his periodontal certificate. He currently is a clinical assistant professor at the State University of New York- Stony Brook School of Dental Medicine in the Department of Periodontics. He is chief editor of the online journal Perio-Implant Advisory. He is on the editorial board for the Dental Economics. He maintains a private practice in New York City, NY.

### Friday, August 12

- 1:00pm-5:00pm Dr. Daniel Becker  
"Essential Principles for Procedural Sedation"  
5:00pm-6:30pm FAP Welcome Reception

### Saturday, August 13

- 7:00am-8:30am Registration/Coffee/Breakfast/**Visit Exhibitors**  
8:00am-9:00am Corporate Forums  
Drs. Rick Miron and Nate Estrin  
"Uses of StellaLife in Periodontology"  
*Sponsored by StellaLife*  
Speaker/Topic: TBD  
*Sponsored by Geistlich Biomaterials*  
9:00am-12:30pm Dr. Scott Froum  
"Challenges in the Anterior Esthetic Zone:  
Implants, Teeth & Gingiva" (Morning)  
10:30am-11:00am Break/**Visit Exhibitors**  
12:30pm-1:30pm FAP Lunch/FAP Business Meeting  
1:30pm-4:00pm Dr. Scott Froum  
"Challenges in the Anterior Esthetic Zone:  
Implants, Teeth & Gingiva" (Afternoon)  
2:30pm-3:00pm Break/**Visit Exhibitors**  
4:00pm-4:30pm **Visit Exhibitors**

FAP reserves the right to make schedule changes.

## COURSE DESCRIPTIONS:

### Friday, August 12

Dr. Daniel Becker  
4 CEUs – 1:00pm-5:00pm  
**Essential Principles for Procedural Sedation**

Description: The essentials for the safe and effective use of moderate sedation include medical evaluation, pharmacological principles, patient monitoring and team knowledge in recognition and management of sedation-related complications. These essentials will be reviewed, and their significance illustrated using case studies.

#### Topics:

- Medical Evaluation
- Pharmacological considerations
- Patient Monitoring
- Sedation-related Complications

#### Objectives:

- Explain essential components for medical assessment including an abbreviated physical assessment.
- Describe the appropriate use of various drug classes useful for providing sedation, including differences in single drug versus multiple drug regimens.
- Describe appropriate monitoring of perfusion, ventilation, and oxygenation
- Describe recognition and management of related complications.

*This course will meet the biennium requirements for a conscious sedation permit*

## Saturday, August 13

Dr. Scott Froum – 5 CEUs – 9am-4pm

### Challenges in the Anterior Esthetic Zone: Implants, Teeth & Gingiva

#### Morning Session: Implants

Although advances in implant esthetic dentistry have been continuing to develop, complications still occur. Esthetic compromise including pink porcelain, prosthetic misfit, unesthetic restorations and patient dissatisfaction are a daily occurrence. The result of poor implant treatment planning can be mechanical failure and/or biologic failure ultimately resulting in financial failure. This course will review proper placement protocols and strategies for when ideal placement is not an option.

#### Educational Objectives:

- Discuss proper 3-dimensional implant placement.
- Discuss the compromise made when ideal placement is not an option.
- Discuss how to surgically replace compromised implants in the esthetic zone.

#### Afternoon Session: Teeth and Gingiva

Ideal outcomes in the anterior esthetic zone often requires tissue grafting to complement cosmetic restorative dentistry. Invasive grafting with traditional surgical techniques and materials can often lead to recession and esthetic defects. Advances in biomaterial and non-invasive surgery has given the clinician the ability to predictably augment deficiencies while not creating esthetic problems. This course has an aim to teach the participant atraumatic extraction, minimally invasive hard and soft tissue grafting, and review the latest biologic materials available.

#### Educational Objectives:

- Learn techniques to carefully remove teeth.
- Learn the available non-invasive surgical hard and soft tissue techniques.
- Discuss bio-promotive material available.

Thank you to Speaker Sponsor: Geistlich Biomaterials

## Margaritaville Resort Orlando

### Reserve Your Room Now...

#### Amenities include:

- ✓ Four on-site distinctive dining and lounge experiences
- ✓ Lagoon-style pools
- ✓ Teen and Kids' Clubs
