Meet Our Speakers...

Luiz H. Gonzaga, DDS, MS, is a highly accomplished dental professional with a wealth of experience in implant dentistry. He graduated from the Catholic University of Brasilia College of Dentistry in 2004 and pursued specialized training in Implant/Periodontics at IPESP Brasilia, where he graduated in 2009. Dr. Gonzaga's commitment to excellence was recognized when he was awarded the prestigious ITI scholarship in 2009, which allowed him to complete an Implant fellowship.

In 2011, he was accepted into a residency program at the University of Florida, where he earned his Master's degree in Prosthodontics in 2014. Currently, Dr. Gonzaga serves as a Clinical Associate Professor at the University of Florida Center for Implant Dentistry. His expertise in implant dentistry has made him a sought-after speaker, and he is an ITI speaker and Fellow of the International Team for Implantology. He is also a member of esteemed organizations like the American College of Prosthodontics and the Academy of Osseointegration.

Dr. Gonzaga's contributions to the field extend beyond his clinical work. He currently holds the position of leadership development committee member of ITI Global and is the Past President of the Florida Prosthodontic Association. He has presented lectures nationally and internationally, sharing his knowledge and expertise in implant dentistry. Additionally, he has published research in peer-reviewed journals and collaborates with esteemed institutions such as the University of Michigan, the University of Kentucky, and the University of Sao Paulo. Dr. Gonzaga is a reviewer for multiple peer-reviewed journals such as the Journal of Prosthodontics, JPD, IJOMI, and IJPRD.

Despite his many professional responsibilities, Dr. Gonzaga remains dedicated to his patients. He practices at the Center for Implant Dentistry five days a week, focusing on treating complex cases involving surgical or prosthetic needs with dental implants. Outside of dentistry, he enjoys spending quality time with his lovely wife Erica and their daughter Stella.

Will Martin, DMD, MS, FACP is a Clinical Professor in the Department of Oral and Maxillofacial Surgery at the University of Florida's College of Dentistry. He received his DMD from the University of Florida and completed his MS and Certificate in Prosthodontics from Baylor College of Dentistry. Dr. Martin joined the faculty at the University of Florida in 1999 and currently serves as the Director of the Center for Implant Dentistry. Dr. Martin is a Diplomate of the American Board of Prosthodontics and a Fellow of the American College of Prosthodontists, International Team for Implantology and Associate Fellow of the Academy of Prosthodontics. Dr. Martin has authored numerous peer-reviewed scientific articles and abstracts. He has co-authored several textbooks on implant dentistry, specifically the ITI Treatment Guides Vol. 1 and 10, S.A.C. Classification in Implant Dentistry (1st Edition) and most recently the 2nd Edition. He is the past Chairman of the Section USA of the ITI and maintains a part-time practice limited to Prosthodontics within the Center for Implant Dentistry. He lectures both nationally and internationally on esthetic and implant dentistry.

Lecture Description:

Emphasis on positive treatment outcomes for implant-based care is at the forefront of today's implant practice. Predictable esthetic and functional success for our implant patients relies on many factors, including comprehensive assessment and planning, the quality of the implant site and tissue response and selection, and proper use of appropriate implants, components, and materials. This recurring success often requires clinicians to have clear lines of communication and common treatment philosophies.

With the maturation of the field of implant dentistry regarding technology, manufacturing, and materials, we have realized and improved treatment efficiency in addition to both esthetic and functional predictability. Streamlining patient care to minimize surgical insult and improve restorative longevity has become the vanguard of clinical demands and continuing education.

This presentation will focus on a sound treatment philosophy incorporating the latest technology and digital options. Patient presentations highlighting step-wise planning and treatment will concentrate on clinical situations ranging from single-tooth replacement to edentulous arches, focusing on immediate implants and esthetic outcomes.

Learning Objectives:

- Detail pretreatment analysis and identify important treatment parameters
- Identify advanced and complex patients and discuss why treatment is considered difficult and why esthetic outcomes may be compromised
- Become familiar with the technology and steps in the fully digital workflow
- Discuss implant and restorative component options and choices for these patients
- Discuss and describe currently available clinical methods for treating a range of patients

ATTENDEES:

Bring your office shopping list and support our vendors! Place your orders at the meeting.

FAP MEMBERS
